Special Dispatch to The Tribune
NEWPORT, R. I., Sept. 7.—One of the many events which are indicative of a late season here is the lecture which Dr. Alexander Hamilton Rice will give at the Art Association on September 16 for the benefit of the Trinity Church parish house. The patronesses for the lecture will include Miss Ida Mason, Miss Ellen F. Mason, Mrs. C. L. F. Robinson, Mrs. Frederick Pearson, Mrs. Alexander Hamilton Rice, Mrs. Richard Gambrell, Mrs. Hugh D. Auchincloss, Mrs. George Henry Warren, Mrs. Marsden J. Perry, Mrs. Stuart Duncan, Mrs. William C. Eustis, Mrs. Edson Bradley, Mrs. Gibson Fahnestock, Mrs. T. Stiffen Taylor, Mrs. Vanderbilt and Mrs. Theodore Kane Gibbs.

The subject of the address will concern the experiences of Dr. Rice on his recent trip to the country near the Orinoco River. Interesting lectures have been given by Dr. Rice previously, but this one promises to eclipse the others, as his last trip was by far the most exciting he has ever made. With a single companion he plunged into the wilderness inhabited only by barbarians and returned with many interesting trophies. His life was frequently imperiled. Probably the most absorbing will be the slides which he will show, depicting the methods of living which he observed on his trip.

The Tribune Fresh Air Fund

More than \$75,000 has been contributed to the Tribune Fresh Air Fund this summer by generous folks who pity the little children of the poor. Has their money been spent wisely and well? Other folks who have been in touch with the children for whose vacations this money has been spent are telling the fund from day to day what they think of this summer's work. For the satisfaction of those who have made the work public, a few letters of appreciation are published below.

The first is from the head worker of the Hudson Guild, a man who knows as much as any one in New York about the children of the poor:

"Now that the season for the Fresh Air work is drawing to a close, I want to write you a word of very sincere appreciation, and indeed of gratitude, for the benefit that the children of this community have received from the Tribune Fresh Air Fund. I have long been of the opinion that camps for the children of the well-to-do marked the greatest educational advance that has been made in decades, and that children of the tenement houses share in a somewhat like benefit is ground for very heartfelt thankfulness. It seems to me that you have performed a tremendous task, and I trust that the consciousness of the incalculably great benefits that the children have received brings you a deep satisfaction. Yours cordially, JOHN L. ELLIOTT."

Praise from Urban League
The second is from the executive secretary of the Urban League, an organization for social service among negroes:

"I am receiving many reports from boys who went to Shepherd Knapp Farm this year, and I am sure that they have spent a most profitable and enjoyable holiday. Every one seems to have had a happy time.

"On their behalf and on behalf of the colored social workers I wish to express our deep appreciation to the Tribune Fresh Air Fund for their many courtesies. Very truly yours, JAMES H. HUBERT."

The third is from the secretary of the Metropolitan Temple:

"May I take this opportunity of thanking you for enabling us to give ninety-eight children of our church a most enjoyable holiday in the country? They all returned happy and thankful, much improved in health and spirits. They are the ones who would have had no other opportunity of getting out of the city during the entire summer."

Dr. and Mrs. Rice will give a dinner at Miramar September 10. They will return to-morrow from an automobile trip.

K. of C. Charges Plot Against U. S. Holidays

Tells of Attempt, Sponsored by Dr. Butler in London, to Promote Celebration of Signing of Magna Charta

Might Eclipse July Fourth

Conspiracy to Suppress the Truth in Text Books Seen by History Board

An effort by propagandists for foreign nations to discredit and eclipse American patriotic holidays was charged yesterday by Edward F. McSweeney, of Boston, chairman of the American History Commission of the Knights of Columbus, who said one of the first tasks of his commission would be to fight such agencies.

"An attempt is even now being made," he said, "and Dr. Nicholas Murray Butler, president of Columbia University, announced his advocacy of recently London, to promote the celebration of the signing of Magna Charta in English-speaking countries. The anniversary of Magna Charta, coming late in June and being the object of celebration as the basis of liberty—which it is not—necessarily eclipse our own Independence Day, which I believe is the ultimate object of the movement."

"The Knights of Columbus will oppose this movement, just as we are opposing movements seeking the abolition of Columbus Day as a national holiday. American liberty did not find inception in Magna Charta. American liberty arose from a demand for the primary human liberties set forth imperfectly in Magna Charta. The Knights of Columbus believe that the Declaration of Independence is an infinitely more important and conclusive document of human liberty than Magna Charta."

Chairman McSweeney met yesterday afternoon with the members of his commission at the Hotel Commodore. The others were Maurice Francis Egan, Admiral William S. Benson, George Derry and Charles S. McCarthy, Supreme Knight James A. Flaherty, Supreme Advocate J. C. McElroy and Supreme Secretary William J. McGinley also attended the conference. All of the members signed the following statement after the meeting had adjourned:

"The Knights of Columbus history movement aims at only one thing—the preservation of truth in the writing of American history. Many of the textbooks used in our schools are utterly unreliable on important phases of the nation's story and totally disregard many cardinal events and personages. The Knights of Columbus oppose the cause of no other history, and are only-aligning the 800,000 members of the order in the production and distribution of a straightforward story, free from propaganda of any kind, of the origin and development of this country."

Chairman McSweeney declared that there were evidences of a conspiracy to suppress truth in the writing of American history. He declared that a great many of the earlier historians of the country were sympathizers with the British and therefore their writings were biased. As for the others, he declared they were too unscrupulous in their treatment of history; that they merely skimmed the surface and failed to give enough details of the subject on which they were writing.
